

# ELIAS VITRANO

(Palermo 1990)

Lives and works in Palermo.

The images of Elias Vitrano have an inmanent levity with a nature as much lyrical as symbolic. Works guided by an authentic intuition, dragged long further the gravitational laws towards a mnemonic archaeology made of drawing-room golem, of a little still life, fossils and spirits of an undefined genealogy. Every image transfers weights and distances between the textures of a dreamy lyricism mediated by little flames of intimate homelike everyday life. Future fossils, timeless figures and images loaded with lively presences from others kingdoms rising from a gentle painting close to an authentic practice of primitive necessity that is at the origin of the graphic sign.

*"The sleeper", 2017, cm. 100x70, Oil on canvas.*
